

Elevator / Escalator Safety

Staying Safe in Public Places

ELEVATOR SAFETY

1 Wait calmly

Stand beside caregiver. Keep hands to self.

2 Wait for people to exit first

Practice "First out, then in."

3 Walk in safely

No running or jumping.

4 Stand still inside

Face the door. Quiet hands and feet.

5 Press button gently

One press only.

6 Hold caregiver's hand when exiting

Walk out calmly.

ESCALATOR SAFETY

1 Stop and look

Wait for adult cue: "Step on."

2 Step carefully

One foot, then the other.

3 Hold the handrail

Stand facing forward.

4 Keep feet still

No sitting, climbing, or playing.

5 Prepare to step off

Adult says: "Step off now."

6 Walk away from the end

Move to the side safely.

ABA TEACHING TIPS

Use modeling and practice during real outings.

Use visual supports or social stories.

Praise immediately!

"Great waiting!" "Nice safe feet!"

Practice during quieter times first.

Reinforce calm body and listening.

SAFETY REMINDER

Always supervise closely near moving stairs and crowded elevators.
